To Whom It May Concern,

LETTER OF RECOMMENDATION: AUGUSTO CURT HANSEN

It is with great pleasure that I recommend Augusto Curt Hansen for a position within your organization. As the IT Manager at Grupo Kyly, one of Brazil's leading textile and fashion groups, I have closely supervised Augusto's work and can attest to his exceptional technical skills and professional integrity.

Augusto was a fundamental member of our development team during the complex SAP implementation project at Grupo Kyly. His contribution was a key differentiator in the success of this transition. He consistently demonstrated high proficiency and the ability to solve critical problems under pressure.

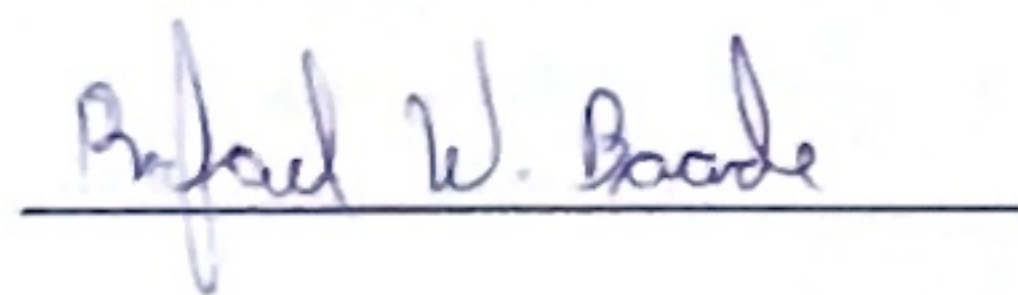

His technical expertise spans several essential domains, including:

- **SAP Ecosystem:** Advanced ABAP development, Fiori components, and SAP Cloud Platform Integration (CPI).
- **Software Engineering:** Solid experience in C# and .NET frameworks.
- **Data Management:** High proficiency in SQL for database architecture and optimization.

Beyond his technical acumen, Augusto is a proactive professional who communicates effectively and integrates seamlessly into multidisciplinary teams. He possesses a rare combination of analytical depth and a results-oriented mindset.

Augusto is leaving our team on excellent terms to pursue a cultural and professional exchange program in Dublin, Ireland. While we are sorry to see him go, we fully support his career development and are confident that he will be a significant asset to any technology team.

I highly recommend Augusto Curt Hansen for any software development or technical role. Please feel free to contact me if you require any further information.

**Rafael Weimer Baade**
